NEW ROUTE
To the Eastern Seaboard!
ONTARIO, SIMCOE & HURON
RAILROAD.
THE NEW RAILWAY ROUTE across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Boats calling at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.
The Steamers
KEYSTONE STATE, Captain RICHARDS, 1,600 tons,
LADY ELGIN, Captain CHAMBERS, 1,300 tons,
QUEEN CITY, Captain WILKINS, 1,200 tons,
Will form a Tri-Weekly Line between Chicago, Milwaukee and Collingwood, the Northern terminus of the Ontario, Simcoe and Huron Railway, by which passengers will reach New York in Seventy Hours from Chicago, and the Route being so arranged that Night Travel will all be on board First-Class Boats, it will form the pleasantest route in existence to Eastern Cities.
The attention of Shippers of Freight, and Merchants generally, is especially invited to the Route, as by it shipments from New York will reach Michigan ports in from SIX TO TEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.
Connections will be made with Steamers for Lake Superior and Green Bay.
An Office will be opened in Milwaukee at an early date. Meanwhile information may be had of Messrs. A. T. SPENCER & CO., Chicago, or of the undersigned.

NEW ROUTE
To the Eastern Seaboard!
ONTARIO, SIMCOE & HURON
RAILROAD.
THE NEW RAILWAY ROUTE across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Boats, calling at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.
The Steamers
KEYSTONE STATE, Captain Richards, 1,600 tons,
LADY ELGIN, Captain Chamberlain, 1,300 tons,
QUEEN CITY, Captain Wilkins, 1,300 tons,
Will form a Tri-Weekly Line between Chicago, Milwaukee and Collingwood, the Northern terminus of the Ontario, Simcoe and Huron Railway, by which passengers will reach New York in Seventy Hours from Chicago, and the Route being so arranged that Night Travel will all be on board First Class Boats, it will form the pleasantest route in existence to Eastern Cities.
The attention of Shippers of Freight, and Merchants generally, is respectfully invited to the Route, as by it shipments from New York will reach Michigan ports in from SIX TO TEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.
Connections will be made with Steamers for Lake Superior and Green Bay.
An Office will be opened in Milwaukee at an early date. Meanwhile information may be had of Messrs. A. T. SPENCER & CO., Chicago, or of the undersigned.

Later from Europe—Peace Conference Measures on the War goes on.

The steamship *Atlantic*, with one week's later dates from the Continent, arrived at New York yesterday. The leading features of the news were received at the *Sentinel* office and immediately published in an Extra the same afternoon, and further details will be found under the Telegraphic head this morning. The Vienna Conference has been one of mild the efforts and arts of Diplomacy to make peace have proved abortive, and the belligerents are once more appeal to the bloody arbitrament of the sword. The duration and the issue of the struggle thus renewed who can foretell or even guess? Now, at least, no doubt that the war will be a protracted one, obstinately contested and involving fearful sacrifice of human life and vast expenditure of money. Happy, thrice happy the out of our own favored land, far removed from the theatre of the conflict, which we behold, moreover, all the blessings of Peace and Plenty!

In the absence of the war news, consols have been declined, and corn and provisions have come more or less into advance. Breadstuffs, however, are dull and drooping, the prospects being fair for good crops in England and France.

Railroads—Change of Time

We call the attention to the change of time on the Milwaukee & Mississippi R R. From and after Monday next, the morning train will leave here going west, at 7.5 A. M. and the evening train at 5 30 P. M.

Connecting with these trains will leave Madison at 4.7 A. M. and 3.1 P. M., and Janesville at 4.50 A. M., and 4 P. M. The arrangements are made with Chamberlain's line of coaches so as to connect with both day and night boats to and from Chicago.

The Milwaukee & Watertown R. R. Co. also change its time on Monday, the train going west leaving here at 7 A. M. and 6.25 P. M. and the trains coming east leaving Oconomowoc at 8.30 A. M. and 3.40 P. M. By taking the morning train passengers can be bound northward reach Fond du Lac the evening of the same day—These trains also connect with the morning and evening trains

Railroad Receipts for April.

The receipts of the incoming portion of the Milwaukee and West Brown Railroad for April, (since 30 miles) were set at $6765,65. The aggregate receipts since the opening of the road, Dec 15th, are as follows

December 1854	$1180,28
January 1855,	4187,82
February,	5491,22
March	5760,02
April,	6765 55

The above is a handsome increase from month to month and the total amount shows well for a section of the road during the first season of the year

The April receipts on 100 miles of the Milwaukee and Missouri R R reach $33,000, and would have been $5,000 more if connection had been made with the steamers on the lake days connected for that purpose go into effect on Monday. As it is, the receipts for April of the present year nearly double those of April, 1854. The gross amount for the first four months of '54 and '55, is as follows

1854	1855,
January, $6,3 24 29	$33,247 05
February, 5b 92 93	26 908 39
March 23, 73 98	30,456 2..
April 18 18 25	33,000 00
$94 59 05	$123 611 84

Increase of the four months $ 5,104 79, or about this rate. The rate of increase through the year would amount to the aggregate for 1855 up to April the whole, the estimate of the Superintendent is $350 00

☞ The Chicago *Journal* directs our attention to the statement of the agent of the Associated Press, at Cincinnati by "the esteem" in which he professes to have "ever held" the conductor of the *Sentinel*, advises us "to drop the subject." Be it only the advice is sincere, and we shall accept it—when we have done with the subject. We have attended elsewhere to the mendacious "statement" of the aforesaid agent for the *Journal* we have only to say, that when it contradicts our message, unwarranted and wholly without color charge against the *Sentinel*, we shall continue to refuse to believe in its professions, "esteem" for the conductors thereof

☞ The Milwaukee makes haste to copy and endorse the false calumny of Mr. Horace White Agent &c who we have deposed of elsewhere in exemplary style. Having volunteered to give one side of the story we wait to see if it will not occur to him and manly thing by a contemporary and publish our reply. The types are at his service.

The Chicago —In chapters already reaches from the Mississippi of considerable numbers of passengers dying of cholera on board steamers bound up. In one time that our Board of Health failed gained ed and at work, so that the accounts may be taken from us. Active measures to put a stop entrance to the city will in such a case be adopted better than hastily devised methods of driving it away. We trust that the Common Council will take immediate action in the premises

Mr. Soulé on Louis Napoleon and Frank Pierce—Soulé left Louisiana Minister to Spain. Mr. Soulé has been making a talk to a meeting of the freedom in New Orleans, from which we take two extracts, as average samples of the whole

I thank you fellow citizens, for this flattering demonstration of your kind feeling towards me. It gladdens my heart to be thus cheered home by friends who love me and who know so well how I have labored for years, and to gain which we fought with them, point sword, *or rendered abortive* by the mock ery of prudence so often mistaken *for wisdom*.

* * * * * * *

I come back to you with a heart undaunted by the sneer which the mere mention of my name has had the power of provoking in *the torpid breast of the crowned cuttle* fish that now *rules over France* and with a brow on which the most abject and reckless adulations have not as yet been able to exact a blush.

Mr. Soulé is undoubtedly a "disappointed" man. I confess Pierce spoils his diplomacy by a machinery of prudence," and the' the "mere mention of his name" provoked the "ire" of the Emperor Napoleon, he did not have the contentment of making that "crowned cuttlefish" blush. It was high time, we think, that Mr. Soulé came home. But "still the wonder grows" that the Administration should ever have exerted him as a Minister to Spain

Cashiering in the Turkish Army.—The Turkish government has decided that, for the future, Christians shall be allowed to hold rank in the Turkish army up to that of Colonel, which will give them the position of a state functionary of the second class.

☞ One word more, from the howlings of the abolitionists—but rather by that been really established in fact—or that of the very least, the next Legislature will certainly establish it. —[Boston Post Extract.

And yet the late census discloses the fact that there are already over 100 slaves in Kansas!

Stocks and Bonds in Wall Street. In Wall street, on Monday last, Virginia sixes sold at 85¾, and Missouri is at 92¾. Among the auction sales of N. K. Lowis we notice $2,000 La Crosse & Milwaukee R. R. at 80¼, and $4000 Chicago & Mississippi at 65⅜.

The Chicago Despatches.

We find the following in the Chicago *Journal* of Wednesday evening.

☞ The charge made against us by the Journal is *scandalous, wanton, unwarranted, and shamefully false*. By what process of questions the Journal has obtained such a statement as is represented to have been made by the "agent of the Associated Press" at Chicago, we do not know, nor do we believe that he will make, over his own signature, any such charges against us as the Journal implies that he makes. The following statement is all that we care to present as to the facts in the case

Milwaukee, April 26, 1855

"The undersigned, operators in the Telegraph Office at this place, state that the despatches as published in the Milwaukee Sentinel, in relation to the recent Chicago, were received at this office from Chicago on Saturday and Sunday evenings, with the exception that the former is more clearly construed, and does not express so excited a state of feeling as the original despatch. We have no means of knowing by whom those despatches were sent but they were received at this office

GEO. L. BENTIE, Operator,
P. TYLER, Co.,ist

The despatches were qualified on Saturday evening, and we considered them, taking care to leave only the facts as to us.—[Milwaukee Sentinel 27 h

To the Editors of the Journal —

(1.) I confess myself for the most part unable to understand by what process the Milwaukee Sentinel arrived at the "belief" as stated above, that the Agent of the Associated Press at Chicago would not make any such charge &c., over his own signature. (2) Previously to the publication of the Sentinel of the 27th, I had forwarded to Milwaukee, a dispatch to the following effect:

Editors of the Sentinel —The despatches in your paper of Monday last, bearing Chicago date have brought me into some trouble here, and as I find them totally at variance with the copy I kept on all the telegraphic reports concerning the disturbances at this place, I am forced to believe that they were either *gathered from* persons not on the ground or that which on those Saturday evening, or, manufactured in the office of the Sentinel In order to prevent *the recurrence* of this trouble, I wish to suggest the propriety of your illuminating, hereafter, the regular telegraphic reports, from those gathered up among idle persons and "loafing travellers, by a more particular check which shall preserve the at least from the imputation of idiocy H WHITE,

Agt Associated Press.

To the above dispatch I have not yet received any answer.

The dispatches forwarded to the press were sent first to Milwaukee and then to St Louis. I am pleased to see that the St. Louis papers were confident to *publish as telegraphic, only* what they received by telegraph, and also that they did not have any report dated Sunday evening. I forwarded no report on Sunday of any kind or in any direction

(3.) Immediately upon the intimation of a disturbance in Chicago, I learned that the city of Milwaukee, through the bulletins and extras of *the Sentinel*, became considerably more excited and abandoned even than the people of Chicago. I learned that the office of the *Sentinel*, and the telegraph office were almost instantaneously besieged, and that with every fresh announcement of news, the excitement became more intense—that I heard that one of the editors of the *Sentinel* sold a Chicago lady, who happened to be there, that the mob was destroying the *Tribune* office I was of course unable to account for this commotion; as I had forwarded nothing to warrant it, and the very same news had roused no disturbance in St Louis or the Eastern cities.

(4.) Immediately concluded that the *Sentinel* was manufacturing its own news or receiving its intelligence from some of its excitement seekers, from the fact that that the establishment was under contract not to post on a bulletin board, issue in an extra, or in any manner make public before *its regular hour of publication, any* news which it might receive over the wires or by virtue of that contract. (5.) It was known here before sunset of Saturday evening, that the *Sentinel* had posted on its bulletin board and in extra sufficient news, bearing Chicago dates of the same day, to set all Milwaukee in an uproar.

(6.) The Milwaukee *Sentinel* has long been notorious *for getting news of one kind or another* considerably in advance of its contemporaries. The news is frequently of an extraordinary character, and always "important if true." In this case it has promulgated news of a disturbance in a neighboring city, received by clobe Lines, spiritual telegraph, or some other unaccountable process, which startles all Wisconsin. It then affirms that *it received the news in the regular way*, and continues to insult over their authenticity nearly two weeks after its absurdity becomes manifest

(7.) The imputation and natural supposition that its crazy despatches were forwarded by the very properly causes doubts as to my fitness for the office which I hold, and as the latest intimation of this fact, I see that the *Staats Zeitung* of this city gives me the sublime appellation of a "nichtswisser." (8.) I should have been content to explain the matter to my immediate friends and those who might have a right to demand an explanation, had not the *Sentinel* called for something more public

If the statement of the Milwaukee operator and copyist is true, I can only say that some *irresponsible person* got hold of the wires, and imposed upon the *Sentinel* to a very considerable extent; and to satisfy its editors, I desire to state over my own signature that the dispatches in controversy, were *not forwarded by me at all*, and to the best of my knowledge and belief, derived from the operator at this place, *were never sent from the Chicago office* (9)

HORACE WHITE,
Agent N. Y. Associated Press

Chicago, April 30, 1855.

We have thus given Mr. Horace White full swing, since, when a man has fulfilled the end for which he is made, and desires to hang himself, it is well enough to give him rope He needs some little attention, and shall have it. To save repetition, we have numbered some portions of his missive.

(1) The "process" was a very natural one. We were *charitable enough* to believe that the person styled the Agent of the "Associated Press" was a man of common sense, reason and veracity. It seems that we were mistaken. So much the worse for *him*.

(2) *We* received no such despatch, and never heard of such a thing till we read it in the above article. On enquiring at the Telegraph office, we learn that such a despatch *was* sent, directed to the editor of the *Wisconsin*. This fact explains doubtless, the remarkable conduct of that paper, of late, in regard to those despatches.

(3.) The *Sentinel* received no news of the riot till evening, the *Wisconsin*, containing the afternoon report in relation to the riot. We published *no* Extras of any kind—not a line! There was no excitement of any sort in the city, or about our office. During the evening of Saturday, we had about the usual number of calls, and were enquired of as to the news. The *idea of any* excitement "intense" or otherwise, is pure moonshine. Neither of the Editors of the *Sentinel* made any such remark as is stated, in relation to the *Tribune* office. The paragraph in the communication is false, from beginning to end.

(4.) The *Sentinel* is not under contract not to post or make public any news which it "may receive over the wires" Not by a great deal. We have our arrangements outside of the "contract" referred to, by which we receive news, and, with the gracious permission of Mr White shall continue to receive news in that manner, and to make it public at such hours as we may choose.

(5.) *All false.*

(6.) To the heinous charge of "getting news considerably in advance of our cotemporaries," we plead guilty. It is a reputation which we have labored for for years, and to gain which we have paid annually from $1400 to $1600, and are willing to pay more if necessary. It is our business to get and give the public the news and we shall continue to do it. If we do not it will be the fault of just such *faithful agents* as Mr White.

(7.) One such communication as the above is abundantly sufficient to prove Mr. W's unfitness for his position, and to *justify the appellation of the Staats Zeitung*

(8.) The *Sentinel* demanded nothing. It was charged by the *Journal* with manufacturing the despatches, and it proved by the operators, that it did not manufacture them.

(9.) To those who know the operators here their word is amply sufficient to offset a statement on "knowledge and belief" of the author of the above communication. We leave the public to judge.

Enough for Mr. White.

One word generally, on the subject of despatches, and we have done. It will be remembered previous to last winter we had been in the habit of publishing in extras, *gratuitously*, immediately on its receipt, all important news, and circulating it throughout the city without a thought of charging for it—paying the Telegraph lines their price, whether for report or private despatch.—Late last fall, we were wasted upon by a gentleman, *who informed* us that he with a few others, had consummated an arrangement with the Telegraph lines from New York westward, by which a complete monopoly of the business was obtained, and the proprietors along the line were compelled to subscribe to the form of contract presented, or not receive the reports. This contract set down the price of news in each city, and the papers who received it were to divide the expense equally among them, and if any failed to pay, the share was to be assessed upon the others. This expense, at first, borne by four papers here, *is thus* now thrown upon the *Wisconsin* and ourselves. It was a regular old-fashioned "stand-and-deliver" way of doing business, but we were compelled to submit. Another feature of this contract, arranged doubtless by some of the lesser and meaner sort of presses, was that the news should not be made public in advance of the regular hour of publication, so that if at daylight, New York should be in flames from end to end, or the taking of Sebastopol with tremendous carnage should be known at New York, or news of the fall or rise of a dollar a barrel in flour should be received, not a soul in Milwaukee is to know it till late in the afternoon! To obviate this, we continue to strive after, to pay for, and to obtain, from reliable sources, private advices, and these come to us with as much *regularity as the bad condition of the lines*, the weather, and considerable outside interference, will allow. And this we shall continue to do, and to publish such news when we please (and we always do it gratuitously,) hoping that some day, some more economical and convenient way of obtaining news can be found

Western Exchanges.—The mails from the *west are* sadly out of order, or else our western friends ignore us entirely. The Cleveland *Leader* and Toledo *Blade* have not made their appearance for several days, while the Chicago and Milwaukee papers come in instalments of half a dozen each. What is the matter.—[Buffalo Democracy.

We cannot guess. Our papers are mailed regularly every night, and the mail boats leave here punctually each morning Where the "break" is between this and Buffalo is more than we can tell.

Rich Gold Region.—The Savannah *Georgian* has advices from the gold region of that State, in the neighborhood of Dahlonega, which says that very rich discoveries of gold have recently been made, and already two thousand bushels of earth had been taken out, valued at over $600 per bushel

Wisconsin Going Ahead.—Mr. Gary, one of the editors of the Madison *Journal*, has been taking a tour round a good portion of our State, and thus speaks of what he has seen:

To any Wisconsin man, who rejoices in the prosperity of the State, it is a source of gratification at the present time to travel through any part of it, and witness the rapid improvement which is everywhere taking place. Old farms *are being improved, and new ones* broken up; the log houses and shanty stables of the pioneers are giving place to neat substantial dwellings, and roomy, commodious barns; in almost every city, village, and hamlet, new buildings, in process of erection, meet the eye on every hand, and the general appearance of thrift and prosperity throughout the country, is a cause for thankfulness and rejoicing, and indicates that Wisconsin is fast approaching the position which she is designed for, among the foremost of the States in wealth and importance.

Tenth Judicial District.—The Green Bay *Advocate* brings us returns of the election for Judge of the Tenth District, which took place on Tuesday last. Brown County gave 305 for Agry, and 279 for Cotton. Verbal reports from Outagamie and Oconto counties, induce the *Advocate* to think that Agry is elected by a decided majority.

Present from the Emperor Napoleon to an American.—Mr. Thompson, of New York, for six years experimental engineer in the employment of E. K. Collins, received, on the 11th ult. from Napoleon III., a gold and enameled snuff box, containing thirty-four diamonds, as an acknowledgment of the utility of his invention of the "self-adjusting life-preserving chair," of which a specimen had been sent to the Emperor.

Suit against a Rail Road Co.—The case of Flanders vs. The M. & M. R. R Company, tried at this week at the Racine Circuit Court, resulted in a verdict for plaintiff for $100. He claimed $10,000. The verdict does not carry costs.

New York Hotels.—The Astor, St. Nicholas, New York, and Clarendon Hotels have raised the price of board from $2,50 to $3.00 per day, from the 1st inst They have also decided to close their bar-rooms on Sunday.

First Arrival at Green Bay.—The steamer *Michigan* from Detroit arrived at Green Bay on Sunday last, with a full load of passengers and freight, having been the first vessel thro' the Straits.

Withdrawal.—Mr. F. Thearle has withdrawn from the editorial management of the Shullsburg *Patriot and Flag*, leaving Mr. C F. Truett, sole proprietor and editor.

Not to Resign.—The Washington papers contradict the rumor that Mr. Mason, the Commissioner of patents, means to resign.

☞ The *News* of yesterday copies our paragraph in relation to Mr. W. B. Draper, and adds:

There is also in the city another representative of Milwaukee who was in the Japan Expedition We allude to Mr. F. A. Boardman, who went out as Midship man on the steamship *Susquehannah*, and returned to New York about three weeks ago on the storeship *German town*. Midshipman Boardman was at Japan at the same time with Mr. Draper, and both, as we are informed, found Milwaukee newspapers in China and Japan.

Milwaukee and Watertown Rail Road.—The Watertown *Times* of the 3d instant says:

Large Numbers of men are now working on that portion of the Milwaukee and Watertown Railroad lying between this city and Oconomowoc. The work has been let in short distances, so that the contractors could finish their jobs about the same time, and *surrender* the road in running condition to the company about the first of July next. The heaviest and most expensive part of the labor has already been performed, and must remain to be finished, is comparatively light. On this end of the line, the work is being vigorously prosecuted by the efficient contractor Geo. Potter.

Gov. Reeder at Home—His Opinion of the Kansas Outrage.

Gov. Reeder, of Kansas, reached Easton, Pa., his former home, on the 30th ult., where he had a most enthusiastic reception at the hands of his friends and former neighbors. In reply to a formal welcome extended to him by Hon. J. M. Porter, Gov. Reeder responded at some length.—Among other things he referred to the reports of fraud and outrage upon the part of slavery men *in Kansas election, and emphatically confirmed* the worst statements which had preceded his arrival. He said his opinions on the subject of popular sovereignty had undergone no change, but that the conduct of the people of the border counties of Missouri had astonished and amazed him by their reckless disregard of all laws, compacts and constitutions.

The Territory of Kansas at her late election had been invaded by a regularly organized company, armed to the teeth, who took possession of the ballot box.es, and made a legislature to suit the purposes of the pro-slavery party. Kansas was subdued and conquered by armed men from Missouri, but her citizens were resolved never to give up the fight for their freedom and the independence of their soil, for foreign control and in reference. The State of Missouri would be called upon at once to show all sympathy with these border ruffians. If she refused, the South would be called upon to discountenance her. If the South refused, the adjoining States would devolve upon the North to take up the matter, so that the rights of her sons who have settled in Kansas on the faith of solemn compacts, shall be vindicated and sustained. He declared that the acts, the fierce outrage and wild violence perpetrated at the election, published in the Northern papers, were in no wise exaggerated.

He concluded by saying that Kansas was now a conquered country, conquered by force of arms, but her citizens were resolved never to yield their rights, and relied upon the North to aid them by demonstrations of public sentiment, and all other legal means, till they shall be fully and triumphantly vindicated.

Early Spring.—Not three weeks ago people were complaining of a cold backward spring, but now the tables are turned, an earlier spring has not been known in a number of years. Farmers have had a splendid time to sow and get in their crops, and well have they employed their time. We hear that an unusual quantity of spring wheat has been sowed, and much of it is already showing itself like green velvet on the surface of the fields of Jeff. and the busy prairies of adjacent counties. Winter wheat never looked better.—[Watertown Chronicle.

The Age of Discretion.—A pair of lovers of the ripe age of 70 and 65, were married a few days ago, at Louisville, Ky.

Plymouth Church.—We are requested to state that Rev. Mr. Crapin, President of Beloit College, is expected to preach in the Plymouth Congregational Church to-morrow, morning and evening.

☞ We are requested to state that the Rev. John Kidd will preach in Young's Hall, Sabbath morning and afternoon, services to commence at the usual hours.

The Panorama.—This afternoon and evening, *offer the last opportunity* for the great majority of our readers for a voyage to Europe, either for 25 cents or any other price. The exhibition closes with this week, and if this fine painting is appreciated in any manner according to its merits, the Hall will be crowded So pack your trunks, and apply at the ticket office.

Pleasant business.—To a man in haste, to wait at the Menomonee river crossing, while a "long, low, black piratical looking schooner" is *being hauled* through by 3 men at the capstan, the remainder of the crew amusing themselves by making faces at their reflections in the water, the vessel meanwhile moving at the rate of a quarter of an inch a minute

Will not sec. 11 of an Ordinance on page 63 of the "Charter and Ordinance" meet the case? It reads thus;

"Every person who shall open or draw any draw or swing bridge in this city, shall close the same within fifteen minutes after opening the same, under the penalty of five dollars for each neglect or offence"

The Menomonee bridge was open on this occasion nearly two hours.

Clement's Line.—We neglected yesterday to call attention to the advertisement from Kellogg & Strong, agents of Clement's Line of steamers, announcing the charge in rates of freight, &c.

No line of steamers in this country is better managed for the safety and convenience of its patrons, whether travellers or owners of freight, or for the regularity of its hours of arrival and departure. We wish its owners and managers all the success which they so well deserve

Barque Great West.—This splendid craft, the largest yet built upon the lakes, registering 784 tons, after remaining at anchor in the bay Thursday and the night following, came into port yesterday morning, drawing 10 ft. water She left Buffalo late last fall, and was among the fleet which laid up at Port Huron. She brings the following cargo; 600 tons coal for the Gas Co., 92000 ft. lumber, 375,000 shingles, and 336 cedar posts for Hibbard & Lloe.

Reform Needed.—The attention of our citizens is invited to an Ordinance in relation to the harbor, which contains the following section;

Sec 7 "No person shall cast or deposit or suffer to be cast or deposited in the harbor or navigable waters of this city, any earth or other heavy substances, filth, manure, logs, or floating matter, or any obstructions, under a penalty of five dollars," &c, &c.

Our attention was invited to the subject by seeing a man yesterday, drive up very coolly to one of our docks, and throw into the river a cargo of rubbish of some sort. It seems hardly worth while to allow this, and then tax the owners of property heavily for dredging.

People's Line.—The following propellers are to form the People's Line, running between Buffalo and ports on Lake Michigan.

Plymouth	Capt Gibson	Forest City	Capt. Theall
Dunkirk	" Hathway	Mayflower	" Palmer
Mt Vernon	" Bennett	Illinois	" Dixon
Brunswick	" Palmer	Saginaw	" Hayford

The agents in this city, mentioned in the advertisement of the line, are Messrs. Dousman & Co, Kellogg & Strong, Nichols, Britt & Co. and L. J. Higby.

Sobe Milwaukee Belle.—This fine schooner, which put into Cleveland in distress last fall and remained there through the winter, surprised her owners yesterday morning by running into port. She left Cleveland on Saturday evening, thus making the trip in five and a half days She brings 315 tons potter's clay, 6 tons powder, and 50 tons coal.

Evergreens.—We saw yesterday some very handsome, healthy evergreens, brought in from Parker's Nursery, Balsams, rooted in boxes, so that in transplanting, no check will be given to their growth. Mr. Parker says that he expects some Norway Spruces on the Prop. *Illinois*

☞ The steamer *Cleveland*, which arrived from Chicago yesterday morning, landed 250 passengers, 75 tons merchandize and 5 horses at this port.

☞ Rooney invites attention to an administrator's sale of Leasehold Property on Main st, Monday, at 10 A. M. He also sells a span of horses, wagons, &c. this morning.

Notice to Liquor Dealers and Draymen.—Marshal O'Brien notifies all Liquor Dealers and Draymen to renew their Licenses before the 12th day of *May*, under pain of being prosecuted.

Eggs.—Somebody has been chasing the hens around Janesville at a dreadful rate. A car containing 80 barrels of them (eggs—not hens) was brought in yesterday from that place.

☞ The locomotive attached to the freight train, bound east on Thursday afternoon, broke a tire, causing a delay of the train till yesterday.

Sheep Shearing.—The farmers about Whitewater talk of getting up a Sheep-Shearing Festival on their own account, before long.

The Crops.—*From every direction we receive* the most flattering reports respecting the appearances of the growing crops. Winter wheat every where presents the most gratifying prospects. If the present circumstances favorable to its growth, continue, even for a short time *longer*, there cannot be a doubt that there will be an enormous growth of straw. Then the amount of the *yield will of course depend* upon the favorableness or unfavorableness of the season in which it ripens. If our memory serves us correctly, notwithstanding the lateness of the spring the crops of grain and grass, and all manner of vegetation are now by far more forward than they were last season at this time, and the weather at present could not be more favorable to their *rapid advancement*. Since our last issue the weather continued warm and dry, in fact, as many thought, rather too dry, until Tuesday night last, when a gentle rain commenced falling, and continued until the time of going to press, which has revived and refreshed everything, and caused the grass especially to almost leap from the earth.—[Jeffersonian.

Early Spring.—Not three weeks ago people were complaining of a cold backward spring, but now the tables are turned, an earlier spring has not been known in a number of years. Farmers have had a splendid time to sow and get in their crops, and well have they employed their time. We hear that an unusual quantity of spring wheat has been sowed, and much of it is already showing itself like green velvet on the surface of the fields of Jeff. and the busy prairies of adjacent counties. MARINE INTELLIGENCE.

Right vessels were recently at Detroit, with cargoes for Buffalo, all of them having been caught by the ice and detained through the winter. They had on board produce as follows:

Flour, barrels	3,673
Wheat, bushels	23 500
Corn	20,884
Oats	65,000

The Steamers *Baltic, Saltona, Minnesota* and *Hudson* are to form the Buffalo and Sandusky stock line during the season of navigation.

The steamer *Illinois* left Detroit on Tuesday for Sault Ste Marie, being the first boat of the season.

The prop. *Illinois*, mentioned as working through the ice near Buffalo is bound up, and may be expected here in a day or two.

The prop. *Edith* and steamer *Lady Elgin* are advertised in the Buffalo *Commercial* for Lake Michigan, as soon as the ice will permit, the *Edith* loading for this city.

P. S.—The *Edith* left Buffalo yesterday

Vessels in Port—Drowned Wanted. There were 3 steamers, 3 propellers, and 35 sail craft in port yesterday morning.

Several vessels were delayed in getting up the river by a shoal near the ship yard It should be cleared out *immediately*, as it is just at the bend of the river, and vessels find it difficult to avoid it.

Arrived From Below.—The following vessels from the lower lakes arrived yesterday, viz: Dodge Mechanic, J H Harmon, Ocean! Schooners C Y Richmond, Osprey, Herald, Japan, Chapman, International, Cascade, Homer Ramsdell and Calco—*Chicago Dem. Press*, May 4th.

Wheat Sale.—The barque Ocean Wave was sold a few days since by Julius White, Esq., of this city, to Mr Cady, of Michigan, for, $13,000, Mr. White had purchased her only a short time before.—*ib*,

Wreck at the Head of the Lake.—Passengers by the Michigan Southern Railroad, report a vessel beached near Chesmont, but were not able to make out what she was.—*ib*.

Lumber in the Lake.—Vessels coming in yesterday passed considerable *lumber* floating in the lake.—*ib*.

Freights.—The *Sentinel* seems to think our ideas of the decline in freights not well rounded. It is our opinion, based upon some observation in the transportation and produce of the Lakes, that freights will rule as low as 12 @ 15 cents for wheat in from ten days to a fortnight.—*Wisconsin*.

We call that decidedly cool. The *Wisconsin* of the day previous had said,—"Nearly half the wheat and flour of our city has already been put afloat." *Thinking this* was calculated to mislead, we showed that while we had shipped 25,000 bbls flour, and about 80 000 bus. wheat, we had still on hand 55,000 bbls flour, and 439,000 bus. wheat, and the above is the reply to our statement. We had no thought of, and said no word concerning the *Wisconsin's* ideas of the decline in freights.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, May 5, 1855

No freight train on Mil. & Miss R. R.

RECEIPTS MIL. & WAT R. R., May 4.—43 bbls flour, 739 bus wheat, 580 bus potatoes, 10 do grass seed, 53 do beans, 9 bbls eggs

No material change in the market yesterday. The news of the steamer was received at 5 P. M., and immediately issued by us in an extra, but it was too late in the day for any effect upon the market.

Receipts quite limited, owing to the detention of trains. Wheat sold at 150@153 for Spring, and 168@170 for winter We notice a sale of 10,000 bus mixed, free on board, at 157.

Barley, wanted at 166@165.

Rye, 90@93.

Oats 51@55.

Corn—Nominally 64@65—very little comes in.

Potatoes, 70@75. We notice a decline in this article in some of the southern markets. In Cincinnati, they have gone down to 1,00 per bus.

St Louis Market,—May 2nd.

Flour—3,000 bbls city superfine. "Hay State," at $5,-25@5,-00 country superfine at $5,50; 75 bbls country superfine at $5,37½.

Wheat—The market was hardly as stiff this morning as before noticed. Sale of 240 sks fall at $1,78 @34 spring at $1,80; 80 fair fall at $1,80; 1335, 146 sks and c) bls good red, at $1,30; 186 sks white, and 80 red, at $1,85; 117 prime red, at $2,48,

Corn—1,600 sks common mixed at 81c; 500 reduced at 80c; 287 prime yellow and white at 90c and 96c, 61c white at 50c.

Oats—36 sks, second-hand gunnies at 58c; 1,100 new gunnies at 48½; 2,000, 6,98, and 119 do at 60c,

Rye—80 sks at $1,31 including sks—a further advance.

Provisions and Lard—25 bbls mess pork at $18, 75; 25 casks country hams at 8c; 2,428 ps shoulders bulk, at 5½, and 1,-3 sides at 6½@6¾c two tierces, dealerable at Burlington, at $8,85; 100 kegs, here, at 11c 94 bbls No. 2 at 8½, and 31 pkgs do at 9¾c.—[Republican 3d.

First Sale of New Wheat.—A bona-fide sale of wheat on the ground—the incoming crop—was made on Saturday, and the first we have heard of having been made this season. One of the most *extensive farmers in an adjoining town* contracted for the sale of the produce of about one hundred acres, to be delivered immediately after harvest, at a fraction less than $2 per bushel. The purchaser was a country miller. A handsome advance was made on the spot to bind the contract. The inferences from this sale is that the present indications are that the opening price for the new crop will not be less than $2. It will be more than ten weeks to harvest, and important changes may occur to affect the markets in that time.—[Rochester Union, Monday Evening.

THE DAILY SENTINEL.

Edited by Wm. E. Watson & John S. Tillmore.

PROPRIETORS,

Saturday Morning, May 5.

Later from Europe — Peace Conference Broken off — the War goes on.

The steamship *Atlantic*, with one week's later dates from the Continent, arrived at New York yesterday. The leading features of the news were received by the *Sentinel* office and inserted in the Extra, the same afternoon, and further details will be found under the Telegraph head this morning. The intelligence is of a very important character. The Vienna Conference has broken up, all the efforts and arts of Diplomacy to secure peace, have proved abortive, and the belligerents are to appeal to the bloody arbitrament of the sword. The duration and the issue of the contest, then renewed who can foretell? Now, at least, can doubt that the war will be a protracted one, obstinately contested and involving fearful sacrifice of human life and vast expenditure of money. Happy, thrice happy the lot of our own favored land, far removed from the scene of strife and the contamination of war and its horrors, and the possessor of all the blessings of Peace and Freedom!

Under the influence of the war news, consols have declined, and corn and provisions become dearer, or at least advance. Bread stuffs however are dull and drooping, the prospects being fair for good crops in England and France.

Railroads — Change of Time.

We notice with pleasure the change of time on the Milwaukee & Mississippi R R. From and after Monday next, the morning train will leave here going west at 7.15 A. M. and the evening train at 5.30 P. M.

Connecting with these trains will leave Madison at 4.45 A. M. and 5.45 P. M., and Janesville at 4.50 A. M., and 6 P. M. The arrangements are made with Chemung's line of steamers so as to connect with both day and night boats to and from Chicago.

The Milwaukee & Watertown R. R. Co. also changes its time on Monday, the trains going west leaving here at 7 A. M. and 6.25 P. M. and the trains coming east leaving Oconomowoc at 8.30 A. M. and 5.40 P. M. By taking the morning train here you get to Watertown at 9.30 A. M. and Fox Lake in the evening at 5.30 P. M.

Thus it will be seen that the Sentinel office and mail agency will be much better supplied than hastily devised schedule of driving it away. We trust that the Company will still take immediate action on the premises.

Railroad Receipts for April.

The receipts of the running portion of the Milwaukee and Mississippi Railroad for April, (since 30 miles were let to $8765,55. The aggregate receipts since the opening of the road, Dec 15 h, are as follows

December 1854	$1430 28
January 1855	4287 82
February,	5491 92
March	5760 02
April,	6765 55

The above table shows a handsome increase from month to month, and the total amount shows well for a new section of the road during the dullest season of the year.

The April receipts on 100 miles of the Milwaukee and Mississippi R R. reach $33,000, and would have been $5,000 more if connection had been made with the day steamers on the east shore previous to that purpose go into effect on Monday. As it is, the receipts for April of this year are nearly double of those of April, last. The gross amount for the first four months of the year '55, is as follows

	1854	1855.
January,	$3 124 29	$33,247 00
February,	2 5 92 33	26 908 39
March	2 1, 73 98	30,456 2.
April	1 1 1 15	33,000 00
	$8 1 69 05	$123 611 84

Increase of the four months $5,104 79, or about 40 per cent. The rate of increase through the year would carry the aggregate for 1855 up to $ of the which the estimate of the Superintendent is $,500,000

☞ *The City Journal* directs our attention to the statement of the agent of the Associated Press, as I moved by "the esteem" in which he refuses to have "never held" the conductors and the *Sentinel*, advises us "to drop the subject." As we doubt the advice is sincere, and we shall accept it — when we have done with the subject! We have attended elsewhere to the miserable "exclusive" of the aforesaid agent. For the *Journal* we have only to say, that when it volunteers its unwarranted and wholly unprovoked charge against the *Sentinel*, we shall be further prepared to believe in its professed respect for the conductors thereof.

☞ The Milwaukee makes haste to copy and endorse the false estimate of Mr. Horace White Agent de what we have disposed of elsewhere in a merely prose. Having volunteered to give one side of the story we wait to see if it will suit some, do a fair and manly thing by a contemporary and publish our reply. The types are at its service.

The Cholera. — In elegance already reaches us from the Mississippi of considerable numbers of passengers dying of cholera on board steamers bound up. It is not time that our Board of Health should be fully manned and at work, so that the scourge may be kept away from us. Active measures to put on a appearance in the city will be much cheaper and better than hastily devised methods of driving it away. We trust that the Common Council will take immediate action on the premises.

It gladdens my heart to be thus cheered home by those who have tried me and who know so well how to appreciate the independent motives even when benighted with the pain sentiment, *or rendered abortive* by the meek try of prudence so often mistaken *for wisdom*.

* * * * * * *

I come back to you with a heart undaunted by the ire which the mere mention of my name has had the power of provoking *in the torpid breast of the cowardly cur who rules over France* and with a brow on which the most abject and treacherous of tyrants have not as yet been able to exact a blush.

Mr. Soulé is unfortunately a "disappointed" man. I suspect Pierce spoils his diplomacy by a mockery of prudence," and the the "many motives for his name" provoked the "ire" of the Emperor Napoleon, he did not have the consideration of making that "crowned cutthroat" blush. It was high time, we think, that Mr. Soulé came home. But "still the wonder grows," that the Administration should ever have deigned to send him as a Minister to Spain.

Condition of the Turkish Army. — The Turkish government has decided that, for the future, Christians shall be allowed to hold rank in the Turkish army up to that of Colonel, which will give them the position of a state functionary of the second class.

☞ One word in reference to the howlings of the abolitionists in Kansas. Had they had been really established in Kansas, or had it the very least, like west of Lecompton, would certainly establish it. —*Detroit Free Press*.

And yet the late census discloses the fact that there are already over 30 slaves in Kansas!

Sales and Decline in Wall Street. In Wall street, on Monday last, Virginia sixes sold at 86¾, and Reads is at 92¾. Among the auctions sales of N Y stocks we notice $2,000 Lacrosse & Milwaukee R R at 80½, and $4000 Chicago & Mississippi at 65½.

The Chicago Despatches.

We find the following in the Chicago *Journal* of Wednesday evening.

☞ The charge made against us by the Journal is gratuitous, wanton, unwarranted, and shamefully false. By what process of questions the Journal has obtained such a statement as is represented to have been made by the "Agent of the Associated Press" at Chicago, we do not know, nor do we believe that he will make, over his own signature, any such charges against us as the Journal implies that he makes. The following statement is all that we care to present as to the *facts* in the case

Milwaukee, April 26, 1855

"The undersigned, operators in the Telegraph Office at Milwaukee, state that the despatches as published in the Milwaukee Sentinel, in relation to the riot at Chicago, were received at this office from Chicago on Saturday and Sunday evenings, with the exception that the Farmer is more decidedly condemned, and does not express as exalted a state of feeling as the original despatch. We have no means of knowing by whom those despatches were sent but they were received at this office."

CH. L. BESTIR, Operator,
P. TYRRELL, Co. just

The despatches were quite lengthy on Saturday evening, and we condensed them, taking care to leave only the *facts* seem to us.—[Milwaukee Sentinel 27 h

To the Editors of the Journal —

(1.) I confess myself for the most part unable to understand by what process the Milwaukee Sentinel arrived at the "belief" as stated above, that the Agent of the Associated Press at Chicago would not make any such charge &c., over his own signature. (2.) Previously to the publication of the Sentinel of the 27th, I had forwarded to Milwaukee a dispatch to the following effect:

Editors of the Sentinel —The dispatches in your paper of Monday last, bearing Chicago date have brought me into some trouble here, and as I find them totally at variance with the copy I have of all the telegraphic reports concerning the disturbances at this place, I am forced to believe that they were either gathered from passengers on the boat which left here Saturday evening, or, manufactured in the office of the Sentinel. In order *to prevent the recurrence of this trouble*, I wish to suggest the propriety of your distinguishing, hereafter, the regular telegraphic reports, from those gathered up among irresponsible and unable travelers, by some peculiar marks which shall preserve me at least from the imputation of idiocy H. WHITE.

Agt Associated Press.

To the above dispatch I have not yet received any answer.

The dispatches forwarded to the press were sent first to Milwaukee and then to St Louis. I am pleased to see that the St. Louis papers were *content to publish* as telegraphic, only what they received by telegraph, and also that they did not have any report dated Sunday evening. I forwarded no report on Sunday of any kind or in any direction

(3.) Immediately upon the intimation of a disturbance in Chicago, I learned that the city of Milwaukee, through the bulletins and extras of *the Sentinel, became considerably more excited* and abandoned even than the people of Chicago. I learned that the office of the *Sentinel*, and the telegraph office were almost instantaneously besieged, and that with every fresh announcement of news, the excitement became more intense — I heard that one of the editors of the *Sentinel* told a Chicago lady, who happened to be there, that the mob was destroying the *Tribune* office I was of course unable to account for this commotion, as I had forwarded nothing to warrant it, and the very same news had roused no disturbance in St Louis or the Eastern cities.

(4.) Immediately concluded that the *Sentinel* was manufacturing its own news or receiving its intelligence from some of its excitement seekers, *from the fact* that that the establishment was under contract not to "post on a bulletin board, issue in an extra, or in any manner make public before its regular hour of publication, any news which it might receive over the wires or by virtue of that contract. (5.) It was known here before sunset of Saturday evening, that the *Sentinel had* posted on its bulletin board and in extras sufficient news, bearing Chicago dates of the same day, to set all Milwaukee in an uproar.

(6.) The Milwaukee *Sentinel* has long been notorious for getting news of one kind or another considerably in advance of its contemporaries. The news is frequently of an extraordinary character, and always important if true." In this case it has promulgated news of a disturbance in a neighboring city, received by cloths ½ inch, spiral telegraph, or some other unaccountable process, which startles all Wisconsin. It then affirms that it received the *news in the regular way*, and continues to assail over their authenticity nearly two weeks after its absurdity becomes manifest

(7.) The imputation and natural supposition that its crazy dispatches were forwarded by me very properly causes doubts as to my fitness for the office which I hold, and as the latest intimation of this fact, I see that the *States Zeitung* of this city gives me the sublime appellation of a "schnitzwesserer." (8.) I should have been content to explain the matter to my immediate friends and those who might have a right to demand an explanation, had not the *Sentinel* called for something more public

If the statement of the Milwaukee operator and copyist is true, I can only say that some irresponsible person got hold of the wires, and imposed upon the *Sentinel* to a very considerable extent, and to satisfy its editors, I desire to state over my own signature, that the dispatches in controversy, *were not forwarded by me at all*, and to the best of my knowledge and belief, derived from the operator at this place, *were never sent from the Chicago office* (9.)

HORACE WHITE,
Agent N. Y. Associated Press

Chicago, April 30, 1855.

We have thus given Mr. Horace White full swing, since, when a man has fulfilled the end for which he is made, and desires to hang himself, it is well enough to give him rope He needs some little attention, and shall have it. To save repetition, we have numbered some portions of his missive.

(1.) The "process" was a very natural one. We were *charitable enough* to believe that the person styled the Agent of the "Associated Press" was a man of common sense, reason, and veracity. It seems that we were mistaken. So much the worse for him.

(2.) We received no such despatch, and never heard of such a thing till we read it in the above article. On enquiring at the Telegraph office, we learn that such a despatch *was* sent, directed to the editor of the *Wisconsin*. This fact explains doubtless, the remarkable conduct of that paper, of late, in regard to those despatches.

(3.) The *Sentinel* received no news of the riot till evening, the *Wisconsin* containing the afternoon report in relation to the riot. We published no Extra of any kind—not a line! There was no excitement of any sort in the city, or about our office. During the evening of Saturday, we had about the usual number of calls, and were enquired of *as to* the news. The *idea of any excitement* "intense" or otherwise, is pure moonshine! Neither of the Editors of the *Sentinel* made any such remark as is stated, in relation to the *Tribune* office. The paragraph in the communication is false, from beginning to end.

(4.) The *Sentinel* is not under contract not to post or make public any news which it "may receive over the wires" Not by a great deal. We have our arrangement's outside of the "contract" referred to, by which we receive news, and with the gracious permission of Mr. White shall continue to receive news in that manner, and to make it public at such hours as we may choose,

(5.) All false.

(6.) To the heinous charge of "getting news considerably in advance of our cotemporaries," we plead guilty. It is a reputation which we have labored for for years, and to gain which we have paid annually from $1400 to $1600, and are willing to pay more if necessary. It is our business to get and give the public the news and we shall continue to do it. If we do not it will be the fault of just such *faithful agents* as Mr White.

(7.) One such communication as the above is abundantly sufficient to prove Mr. W's unfitness for his position, and to *justify the appellation of* the *States Zeitung*

(8.) The *Sentinel* demanded nothing. It was charged by the *Journal* with manufacturing the despatches, and is proved by the operators, that it did not manufacture them.

(9.) To those who know the operators here their word is amply sufficient to offset a statement on "knowledge and belief" of the author of the above communication. We leave the public to judge.

Enough for Mr. White.

One word generally, on the subject of despatches, and we have done. It will be remembered that to last winter we had been in the habit of publishing in extras, *gratuitously*, immediately on its receipt, all important news, and circulating it throughout the city without a thought of charging for it—paying the Telegraph lines their price, whether for report or private despatch.—Late last fall, we were wasted upon by a gentleman, *who informed us* that he with a few others, had consummated an arrangement with the Telegraph lines from New York westward, by which a complete monopoly of the business was obtained, and the proprietors along the line were compelled to subscribe to the form of contract presented, or not receive the reports. This contract set down the price of news in each city, and the papers who received it were to divide the expense equally among them, and if any failed to pay, the share was to be assessed upon the others. This expense, at first, borne by four papers here, *is* thus now thrown upon the *Wisconsin* and ourselves. It was a regular old-fashioned "stand-and-deliver" way of doing business, but we were compelled to submit. Another feature of this contract, arranged doubtless by some of the lesser and meaner sort of presses, was that the news should not be made public in advance of the regular hour of publication, so that it at daylight, New York should be in flames from end to end, or the taking of Sebastopol with tremendous carnage should be known at New York, or news of the fall or rise of a dollar a barrel in flour should be received, not a soul in Milwaukee is to know it till late in the afternoon! To obviate this, we continue to strive after, to pay for, and to obtain, from reliable sources, private advices, and these come to us with as much regularity as the bad condition of the hole, the weather, and considerable outside interference, will allow. And this we shall continue to do, and to publish such news when we please (and we always do it gratuitously,) hoping that some day, some more economical and convenient way of obtaining news can be found

Western Exchanges. — The mails from the west are sadly out of order, or else our western friends ignore us entirely. The Cleveland *Leader* and Toledo *Blade* have not made their appearance for several days, while the Chicago and Milwaukee papers come in instalments of half a dozen each. What is the matter.—[Buffalo Democracy.

We cannot guess. Our papers are mailed regularly every night, and the mail boats leave here punctually each morning Where the "break" is between this and Buffalo is more than we can tell.

Rich Gold Region — The Savannah *Georgian* has advices from the gold region of that State, in the neighborhood of Dahlonega, which says that very rich discoveries of gold have recently been made, and already two thousand bushels of earth had been taken out, valued at over $800 per bushel

Wisconsin Going Ahead. — Mr. Gary, one of the editors of the Madison *Journal*, has been taking a tour round a good portion of our State, and thus speaks of what he has seen:

To any Wisconsin man, who rejoices in the prosperity of the State, it is a source of gratification at the present time to travel through any part of it, and witness the rapid improvement which is everywhere taking place. Old farms are being *improved*, and new ones *broken up*; the log houses and shanty stables of the pioneers are giving place to neat substantial dwellings, and roomy, commodious barns; in almost every city, village, and hamlet, new buildings, in process of erection, meet the eye on every hand, and the general appearance of thrift and prosperity throughout the country, is a cause for thankfulness and *rejoicing*, and *indicates* that Wisconsin is fast approaching the position which she is designed for, among the foremost of the States in wealth and importance.

Tenth Judicial District. — The Green Bay *Advocate* brings us returns of the election for Judge of the Tenth District, which took place on Tuesday last. Brown County gave 305 for Agry, and 279 for Cotton. Verbal reports from Outagamie and Oconto counties, induce the *Advocate* to think that Agry is elected by a decided majority.

Present from the Emperor Napoleon to an American. — Mr. Thompson, of New York, for six years experimental engineer in the employment of E. K. Collins, received, on the 11th ult., from Napoleon III., a gold and enameled snuff box, containing thirty-four diamonds, as an acknowledgment of the utility of his invention of the "self-adjusting life-preserving chair," of which a specimen had been sent to the Emperor.

Suit against a Rail Road Co. — The case of Flanders vs. The M. & M. R. R. Company, tried this week at the Racine Circuit Court, resulted in a verdict for plaintiff for $100. He claimed $10,000. The verdict does not carry costs.

New York Hotels. — The Astor, St. Nicholas, New York, and Clarendon Hotels have raised the price of board from $2,50 to $3,00 per day, from the 1st inst They have also decided to close their bar-rooms on Sunday.

First Arrival at Green Bay. — The steamer *Michigan* from Detroit arrived at Green Bay on Sunday last, with a full load of passengers and freight, having been the first vessel thro' the Straits.

Withdrawal. — Mr. F. Theable has withdrawn from the editorial management of the Shullsburg *Patriot and Flag*, leaving Mr. C F. Tarbitt, sole proprietor and editor.

Not to Resign. — The Washington papers contradict the rumor that Mr. *Mason*, the Commissioner of patents, means to resign.

☞ The *News* of yesterday copies our paragraph in relation to Mr. W. B. Draper, and adds:

There is also in the *city* another representative of Milwaukee who was in the Japan Expedition. We allude to Mr. F. A. Boardman, who went out as Midshipman on the steamship *Susquehannah*, and returned to New York about three weeks ago on the storeship *German town*. Midshipman Boardman was at Japan at the same time with Mr. Draper, and both, as we are informed, found Milwaukee newspapers in China and Japan.

Milwaukee and Watertown Rail Road. — The Watertown *Times* of the 3d instant says:

Large Numbers of men are now working on that portion of the Milwaukee and Watertown Railroad lying between this city and Oconomowoc. The work has been let in short distances, so that the contractors could finish their jobs about the same time, and surrender the road in running condition to the company about the first of July next. The heaviest and most expensive part of the labor has already been performed, and what remains to be finished, is comparatively light. On this end of the line, the work is being vigorously prosecuted by the efficient contractor Geo. Potter.

Gov. Reeder at Home — His Opinion of the Kansas Outrage.

Gov. Reeder, of Kansas, reached Easton, Pa., his former home, on the 30th ult., where he had a most enthusiastic reception at the hands of his friends and former neighbors. In reply to a formal welcome extended to him by Hon. J. M. Porter, Gov. Reeder responded at some length. Among other things he referred to the reports of fraud and outrage upon the part of slavery men in Kansas *election*, and *emphatically confirmed* the worst statements which had preceded his arrival. He said his opinions on the subject of popular sovereignty had undergone no change, but that the conduct of the people of the border counties of Missouri had astonished and amazed him by their reckless disregard of all laws, compacts and constitutions.

The Territory of Kansas at her late election had been invaded by a regularly organized company, armed to the teeth, who took possession of the ballot boxes, and *made a legislature* to suit the purposes of the pro-slavery party. Kansas was subdued and conquered by armed men from Missouri, but her citizens were resolved never to give up the fight for their freedom and the independence of their soil, for foreign control and interference. The State of Missouri would be called upon at once for all sympathy with these border ruffians. If she refused, the South would be called upon to discountenance her. If the South refused, the solemn duty would devolve upon the North to take up the matter, so that the rights of her sons who have settled in Kansas on the faith of solemn compacts, shall be vindicated and sustained. He declared that the acts, the fierce outrages and wild violence perpetrated at the election, published in the Northern papers, were in no wise exaggerated.

He concluded by saying that Kansas was now a conquered country, conquered by force of arms, but her citizens were resolved never to yield their rights, and relied upon the North to aid them by demonstrations of public sentiment, and all other legal means, till they shall be fully and triumphantly vindicated.

Early Spring. — Not three weeks ago people were complaining of a cold backward spring, but now the tables are turned, an earlier spring has not been known in a number of years. Farmers have had a splendid time to sow and get in their crops and well have they employed their time. We hear that an unusual quantity of spring wheat has been sowed, and much of it is already showing itself like green velvet on the surface of the fields of Jefferson and the broad prairies of adjacent counties! Winter wheat never looked better.—[Watertown Chronicle.

The Age of Discretion. — A pair of lovers of the ripe age of 70 and 65, were married a few days ago, at Louisville, Ky.

Plymouth Church. — We are requested to state that Rev. Mr. Chapin, President of Beloit College, is expected to preach in the Plymouth Congregational Church to-morrow, morning and evening.

☞ We are requested to state that the Rev. John Kind will preach in Young's Hall, Sabbath morning and afternoon, services to commence at the usual hours.

The Panorama. — This afternoon and evening, offer the last opportunity for the great majority of our readers for a voyage to Europe, either for 25 cents or any other price. The exhibition closes with this week, and if this fine painting is appreciated in any manner according to its merits, the Hall will be crowded So pack your trunks, and apply at the ticket office.

Pleasant business. — To a man in haste, to wait at the Menomonee river crossing, while a "long, low, black piratical looking schooner" is being hauled through by 3 men at the capstan, the remainder of the crew amusing themselves by making faces at their reflections in the water, the vessel meanwhile moving at the rate of a quarter of an inch a minute

Will not sec. 11 of an Ordinance on page 63 of the "Charter and Ordinance" meet the case? It reads thus;

"Every person who shall open or draw any draw or swing bridge in this city, shall close the same within fifteen minutes after opening the same, under the penalty of five dollars for each neglect or offence"

The Menomonee bridge was open on this occasion nearly two hours.

Clement's Line. — We neglected yesterday to call attention to the advertisement from Kellogg & Strong, agents of Clement's Line of steamers, announcing the change in rates of freight, &c.

No line of steamers in this country is better managed for the safety and convenience of its patrons, whether travellers or owners of freight, or for the regularity of its hours of arrival and departure. We wish its owners and managers all the success which they so well deserve

Barque Great West. — This splendid craft, the largest yet built upon the lakes, registering 784 tons, after remaining at anchor in the bay Thursday and the night following, came into port yesterday morning, drawing 10 ft. water She left Buffalo late last fall, and was among the fleet which laid up at Port Huron. She brings the following cargo; 600 tons coal for the Gas Co., 92000 ft. lumber, 375,000 shingles, and 336 cedar posts for Hibbard & Luce.

Reform Needed. — The attention of our citizens is invited to an Ordinance in relation to the harbor, which contains the following section;

Sec 7 "No person shall cast or deposit or suffer to be cast or deposited in the harbor or navigable waters of this city, any earth or other heavy substances, filth, manure, logs, or floating matter, or any obstructions, under a penalty of five dollars," &c, &c.

Our attention was invited to the subject by seeing a man yesterday, drive up very coolly to one of our docks, and throw into the river a cargo of rubbish of some sort. It seems hardly worth while to allow this, and then tax the owners of property heavily for dredging.

People's Line. — The following propellers are to form the People's Line running between Buffalo and ports on Lake Michigan.

Plymouth	Capt Gibson	Forest City	Capt. Pleatt
Dunkirk	" Hathaway	Mayflower	" Frimer
Mr Vernon	" Bennett	Illinois	" Dixon
Brunswick	" Palmer	Saginaw	" Haviord

The agents in this city, mentioned in the advertisement of the line, are Messrs. Doolman & Co, Kellogg & Strong, Nichols, Britt & Co. and L. J. Higby.

Scene. Milwaukee Belle — This fine schooner, which put into Cleveland in distress last fall and remained there through the winter, surprised her owners yesterday morning by running into port. She left Cleveland on Saturday evening, thus making the trip in five and a half days She brings 315 tons potter's clay, 6 tons powder, and 50 tons coal.

Evergreens — We saw yesterday some very handsome, healthy evergreens, brought in from Parker's Nursery, Balsams, rooted in boxes, so that in transplanting, no check will be given to their growth. Mr. Parker says that he expects some Norway Spruces on the Prop. *Illinois*

☞ The steamer *Cleveland*, which arrived from Chicago yesterday morning, landed 250 passengers, 75 tons merchandize and 5 horses at this port.

☞ Rooney invites attention to an administrator's sale of Leasehold Property on Main st, Monday, at 10 A. M. He also sells a span of horses, wagons, &c. this morning.

Notice to Liquor Dealers and Draymen. — Marshal O'Brien notifies all Liquor Dealers and Draymen to renew their Licenses before the 12th day of May, under pain of being prosecuted.

Eggs. — Somebody has been chasing the hens around Janesville at a dreadful rate. A car containing 80 barrels of them (eggs — not hens) was brought in yesterday from that place.

☞ The locomotive attached to the freight train, bound east on Thursday afternoon, broke a tire, causing a delay of the train till yesterday.

Sheep Shearing. — The farmers about Whitewater talk of getting up a Sheep-Shearing Festival on their own account, before long.

The Crops. — From every direction we receive the most flattering reports respecting the appearances of the growing crops. Winter wheat everywhere presents the most gratifying prospects. If the present circumstances favorable to its growth continue, even for a short time longer, there cannot be a doubt that there will be an enormous growth of straw. Then the amount of the yield will of course depend upon the favorableness or unfavorableness of the season in which it ripens. If our memory serves us correctly, notwithstanding the lateness of the spring the crops of grain and grass, and all manner of vegetation are now by far more forward than they were last season at this time, and the weather at present could not be more favorable to their *rapid advancement*. Since our last issue the weather continued warm and dry, in fact, as many thought, rather too dry, until Tuesday night last, when a gentle rain commenced falling, and continued until the time of going to press, which has revived and refreshed everything, and caused the grass especially to almost leap from the earth.—[Jeffersonian.

Off for Kansas. — Wm. W. Ross, for a long time printer, and the last six months Foreman in the Free Democrat Office, has left for Kansas. He goes through Iowa. If all emigrants to Kansas were like him, Kansas would be safe from Slavery, rum and crime to the millennium. —[Free Democrat.

How the Country Looks. — We took a trip of sixteen miles into the country a few days since, and found the winter wheat very promising in appearance. Several pieces along the road we travelled are as fine specimens as we ever saw in any country.—[Monroe Sentinel.

MARINE INTELLIGENCE.

Eight vessels were recently at Detroit, with cargoes for Buffalo, all of them having been caught by the ice and detained through the winter. They had on board produce as follows:

Flour, barrels	3,573
Wheat, bushels	23 600
Corn	20,084
Oats	68,090

The Steamers *Baltic, Sultana, Minnesota* and *Hudson* are to form the Buffalo and Sandusky stock line during the season of navigation.

The steamer *Illinois* left Detroit on Tuesday for Sault Ste Marie, being the first boat of the season.

The prop. *Illinois*, mentioned as working through the ice near Buffalo is bound up, and may be expected here in a day or two.

The prop. *Edith* and steamer *Lady Elgin* are advertised in the Buffalo *Commercial* for Lake Michigan, as soon as the ice will permit, the *Edith* loading for this city.

P. S. — The *Edith* left Buffalo yesterday

Vessels in Port — Harbor Master. There were 3 steamers, 3 propellers, and 35 sail craft in port yesterday morning.

Several vessels were delayed in getting up the river by a shoal near the ship yard. It should be cleared out immediately, as it is just at the bend of the river, and vessels find it difficult to avoid it.

Arrived From Below. — The following vessels from the lower lakes arrived yesterday, viz: Brigs Mechanic, J H Harmon, Oriental Schooners C Y Richmond, Osprey, Herald, Japan, Chasaman, International, Cascade, Homer Ramsdell and Calco — *Chicago Dem. Press*, May 4th.

Vessels Sale. — The barque *Ocean Wave* was sold a few days since by Julius White, Esq., of this city, to Mr Cady, of Michigan, for, $13,000, Mr. White had purchased her only a short time before.—*Ib.*

Wreck at the Head of the Lake. — Passengers by the Michigan Southern Railroad, report a vessel beached near Chalmont, but were not able to make out what she was.—*Ib.*

Lumber in the Lake. — Vessels coming in yesterday passed considerable lumber floating in the lake.—*Ib.*

Freights. — The *Sentinel* seems to think our ideas of the decline in freights not well founded. It is our opinion, based upon some observation in the transportation of produce of the Lakes, that freights will rule as low as 12 @ 15 cents for wheat in fifteen days.—*Wisconsin.*

We call that decidedly cool. The *Wisconsin* of the day previous had said,—"Nearly half the wheat and flour of our city has already been put afloat." Thinking this was calculated to mislead, we showed that while we had shipped 25,000 bbls flour, and about 80 000 bus. wheat, we had still on hand 55,000 bbls flour, and 439,000 bus. wheat, and the above is the reply to our statement. We had no thought of, and said no word concerning the *Wisconsin's* ideas of the decline in freights.

Summer Freight Rates on the Great Western, Canada Railway.

Received by Mil. & Wat R. R., May 4.—45 bbls flour, 739 bus wheat, 580 bus potatoes, 10 do grass seed, 65 do beans, 9 bbls eggs

No material change in the market yesterday. The news of the steamer was received at 5 P. M., and immediately issued by us in an extra, but it was too late in the day for any effect upon the market.

Receipts quite limited, owing to the detention of trains. Wheat sold at 160@153 for Spring, and 160@170 for Winter We notice a sale of 10,000 bus inland, free on board, at 147.

Barley, wanted at 70@105.

Rye, 80,93.

Oats 54@55.

Corn — Nominally 64@65 — very little comes in.

Potatoes, 70@75. We notice a decline in this article in some of the southern markets. In Cincinnati, they have gone down to 1,00 per bus.

St. Louis Market, — May 2nd.

Flour — 3,000 bbls city superfine. "Gay State," at $6,-62½, 100 country superfine at $6,50; 75 bbls country superfine at $6,37½.

Wheat — The market was hardly as stiff this morning as before noticed. Sale of 250 sks fall at $1,78 (34) spring at $1,80; 50 fair fall at $1,80; 193, 164 sks and 6) bis good red, at $1,90; 186 sks white, and 88 red, at $1,85; 117 prime red, at $2,48,

Corn — 1,000 sks common mixed at 81c; 670 mixed at 82c; 582 prime yellow and white at 86c and 85c, 61s white at 85c.

Oats — 38 sks, second-hand gunnies at 58c; 1,100 new gunnies at 53½; 2,200, 4,34, and 112 do at 60c,

Rye — 80 sks at $1,31 including sks — a further advance.

Provisions and Lard — 25 bbls mess pork at $15, 75; 25 casks country hams at 8c; 3,429 pc shoulders bulk, at 5½, and 1,9-3 sides at 6½; 200 kegs lard, deliverable at fourth prox, at 10,85; 100 kegs, here, at 11c; 54 bbls No. 2 at 9½, and 31 pkgs do at 9½c.—[

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.

While the reverse relative of a family lives, (although, through neglect to insure his property, he becomes embarrassed,) he supports cheerfully; but at his *death*, decline their means of support, unless he has saved them from waste by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not been felt by the family of one worldly care of the living Life.

If young, the annual payment will be light, and if insured with premium, the policy will be constantly growing more valuable, as each year's premium is not increased.

Clergymen and others who have a stated and regular income, should reserve, well knowing that, at their death their income ceases, and with it their support.

Men engaged in trade or the manufacturing pursuits, conducting such a asset in their name, should insure.

The farmer who has settled property on his farm, should insure, as a portion of the interest of the money, thereby enabling his family to pay off the debt or sum of his farm.

Laugh and Grow Fat.

A glance at the Young America—great novelty—for ladies with pussy balls in hand, each intent on making the best strike—down goes the pussys furiously on the smooth glossy alleys, sending the pins tumultuously in their course Then comes the laugh that makes mind, and frame all joy and gladness, and the whole system liberates with unwonted vigor. This exercise is far superior to any other, for developing the system physics it with renewed energy. Ladies will please bear in mind, that orders for the use of the alleys, should be left at least four hours previous to the time of coming.

BREADSTUFFS DULL!

Consols Declined.

RUSSIA REJECTS PROPOSITION OF ALLIES.

NO HOPE OF PEACE!

[SPECIAL DESPATCH TO THE SENTINEL.]
NEW YORK, May 4, 1854.

Atlantic arrived Russia *refuses* to concede the third point demanded by the Allies. The Bombardment of Sebastopol has been commenced with *Six Hundred* Guns. No hope of Pease!

Additional by the Atlantic.

The Vienna Conference Broken off—The Foreign Market.

Sandy Hook, May 4.

The *Atlantic* has arrived.

The Vienna Conference is broken off. Russia rejects the Allied demands.

Sebastopol has been bombarded since the 9th Results doubtful.

The new British loan has been taken. The Emperor Napoleon, accompanied by the Empress' has been one week in England; immensely glorified. The British loan of 16,000,000 sterling ($78,000,000) has been taken by the Rothschilds. That Louis Napoleon will take the command of the allied army in the Crimea is regarded as doubtful.

Since the breaking up of the Vienna conference, there are strong indications of Austria refusing to act against Russia. Lord John Russell and M. Drouyn De L'Huys, (the British and French envoys) have left Vienna. Cotton steady and unchanged, wheat and flour lower; corn slightly advanced; iron unchanged; money easy; consols declined 89¾.

The Atlantic brings Liverpool dates to the 21st, ult. When the steamer left, the new loan had been all taken. Napoleon and Eugenie had been on their visit to England all the week. The Rothschilds take the 16,000,000 loan at 100 pounds in consols at 14-6d. It is in the shape of annuities ending in 20 years. Increased taxes on incomes, spirits, tea, coffee, sugar and stamps, are proposed.

It is asserted that England assents to Louis Napoleon taking command of the allied army, but is regarded however as doubtful rumor. The *Vienna Conference* was broken off after its 12th session.

Russia absolutely refused to assent to the proposal of France and England. The general bombardment of Sebastopol from 500 guns, commenced on the 9th and continued incessantly, but up to the 15th an assault had not been practicable. It was the intention to storm the place—if possible.

The Liverpool cotton market was steady at previous rates. The sales of the nine days were 70,000 bales, including 19,000 on speculation and for export. Breadstuffs—Wheat and flour quiet and slightly lower—corn a little advanced—western canal flour 39s4½—white wheat 11s6d a12s2d—white corn 42s4s Provisions slightly advanced. London money market easier.

Evening Despatch.

[EXCLUSIVELY FOR THE SENTINEL.]

Further Details of the News.

NEW YORK, May 4, 6 P. M.

All hopes of Austria's taking the field against Russia is *abandoned* From Sebastopol we hear that during the first ten days of the Bombardment, the fire of the besiegers was superior to that of the besieged. The Russian works were much damaged. During the night of the 13th the besiegers gained important advantages, dislodging Russians from strongly fortified posts which remained in the hands of the French.—The possession of these will enable the Allies to forufy the head of the ravine.

The Russian Admiral had been killed. Gortschakoff has published an address to the garrison, stating that *matters* looked more encouraging, as trouble had arisen at Kanagora, by the brutal conduct of an Austrian officer The People rose and drove out the Austrian troops, with a loss of 247 killed. Excitement continues.

Russians are fortifying Baltic ports and have 120,000 troops concentrated there. The British ships are still kept back by the ice.

Parliament re-assembled on the 16th. The estimated expenses of the year are 86,339,500 pounds (nearly 430 *millions* of dollars!)

The visit of the French Emperor and Empress had created a wonderful excitement in England.

Russia absolutely refuses to submit to the limitation of her power in the Black Sea, but offers to agree to a Turkish armament equal to her own.

LIVERPOOL MARKETS—Cotton fair demand, with more steadiness the *last two days* on account of supposed advantages at Sebastopol.

BREADSTUFFS—Brown Shipley & Co. report flour declined 1s, and wheat 3d, Corn in more demand, and holders realize an advance.

Western Canal flour, old 41s, new 39s40s; Phil. and Balt 42s42s6d—Ohio 41s43s.

Yellow corn 43s44s 9d, white 43s43s6d.

Provisions—Gardiner & Co. report best active and firmer. Pork better demand—prices maintained, though stock is heavy—prices advanced 1s4s6d. Lard is dearer.

Money abundant—consols closed at 89⅝a89¾ for money, 89¾a89¾ for account. Stocks well supported.

New York, May 4th,

Four men have been arrested and committed for enlisting troops for the English army.

Arrivals at Buffalo — the Saginaw arrived.

Buffalo, 4th, 10 P. M.

Steamers Western World and Rockeye State arrived to-day.

Prop. *Saginaw* arrived from Milwaukee at 4 P. M., having only 60 hours detention on the trip She reports the north shore of Lake Erie clear. Twenty or thirty vessels outside bound up, making good headway.

Prices in market firm. Sales about 6000 bbls flour at 9,25a9,40 for common III. Choice brands Mich. bring 9,70.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, who on their will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be effected, are incontrovertible; and Life Insurance, while in no way interfering with, or undervalued than important than Business, has claims which no other system of insurance can have. Hence existence must on consideration, enjoy a much higher notice than usually prevails.

While the representative of a family lives, (although through neglect to insure his property, he become a bankrupt, he supports himself; but at his *death*, decisive their means of support, unless he has saved them from that by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not fitted into his ordinary contributing his.

If young, the sum to be paid will be light, and if insured at such periods, the policy will be constantly growing more valuable, as age in its progress is not increased.

Clergymen and others, who have limited and regular incomes, should review well knowing that, at this death *have insurance may secure destitution,*

Men engaged in any of the manufacturing pursuits connected carrying and transit in their interest, should insure.

The farmer who has still a mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

Arrival of the Steamship
Atlantic!
BREADSTUFFS DULL!
Consols Declined.
RUSSIA REJECTS PROPOSITION OF ALLIES.
NO HOPE OF PEACE!

[SPECIAL DESPATCH TO THE SENTINEL.]

NEW YORK, May 4, 1854.

Atlantic arrived *Russia refuses* to concede the third point demanded by the Allies. The Bombardment of Sebastopol has been commenced with *Six Hundred* Guns. No hope of Peace!
F. A. A.

[SECOND DESPATCH.]

New York, May 4.

Breadstuffs dull and declining. Corn firm—provisions active Consols declined one per cent.

Very Latest Received.

Bombardment of Sebastopol suspended in consequence of severe loss of life on both sides.
F. A. A.

Additional by the Atlantic.

The Vienna Conference Broken off—The Foreign Market.

Sandy Hook, May 4.

The *Atlantic* has arrived.
The Vienna Conference is broken off. Russia rejects the Allied demands.
Sebastopol has been bombarded since the 9th Results doubtful.
The new British loan has been taken. The Emperor Napoleon, accompanied by the Empress' has been one week in England; immensely glorified. The British loan of 16,000,000 sterling ($78,000,000) has been taken by the Rothschilds. That Louis Napoleon will take the command of the allied army in the Crimea is regarded as doubtful.
Since the breaking up of the Vienna conference, there are strong indications of Austria refusing to act against Russia. Lord John Russell and M. Drouyn De L'Huys, (the British and French envoys) have left Vienna. Cotton steady and unchanged, wheat and flour lower; corn slightly advanced; iron unchanged; money easy; consols declined 89¾.
The Atlantic brings Liverpool dates to the 21st, ult. When the steamer left, the new loan had been all taken. Napoleon and Eugenie had been on their visit to England all the week. The Rothschilds take the 16,000,000 loan at 100 pounds in consols at 14-6d. It is in the shape of annuities ending in 20 years. Increased taxes on incomes, spirits, tea, coffee, sugar and stamps, are proposed.
It is asserted that England assents to Louis Napoleon taking command of the allied army, but is regarded however as doubtful rumor. The Vienna Conference was broken off after its 12th session.
Russia absolutely refused to assent to the proposal of France and England. The general bombardment of Sebastopol from 500 guns, commenced on the 9th, and continued incessantly, but up to the 15th an assault had not been practicable. It was the intention to storm the place—if possible.
The Liverpool cotton market was steady at previous rates. The sales of the nine days were 70,000 bales, including 19,000 on speculation and for export. Breadstuffs—Wheat and flour quiet and slightly lower—corn a little advanced—western canal flour 39s40s—white wheat 11s6d a12s2d—white corn 42s44s Provisions slightly advanced. London money market easier.

Evening Despatch.

[EXCLUSIVELY FOR THE SENTINEL.]

Further Details of the News.

NEW YORK, May 4, 6 P. M.

All hopes of Austria's taking the field against Russia is *abandoned* From Sebastopol we hear that during the first ten days of the Bombardment, the fire of the besiegers was superior to that of the besieged. The Russian works were much damaged. During the night of the 13th the besiegers gained important advantages, dislodging Russians from strongly fortified posts which remained in the hands of the French.—The possession of these will enable the Allies to fortify the head of the ravine.
The Russian Admiral had been killed. Gortschakoff has published an address to the garrison, stating that matters looked more encouraging, as trouble had arisen at Kasagora, by the brutal conduct of an Austrian officer The People rose and drove out the Austrian troops, with a loss of 247 killed. Excitement continues.
Russians are fortifying Baltic ports and have 120,000 troops concentrated there. The British ships are still kept back by the ice.
Parliament re-assembled on the 16th. The estimated expenses of the year are 86,339,500 pounds (nearly 430 *millions* of dollars!)
The visit of the French Emperor and Empress had created a wonderful excitement in England.
Russia absolutely refuses to submit to the limitation of her power in the Black Sea, but offers to agree to a Turkish armament equal to her own.
LIVERPOOL MARKETS—Cotton, fair demand, with more steadiness the *last two days* on account of supposed advantages at Sebastopol.
BREADSTUFFS—Brown Shipley & Co. report flour declined 1s, and wheat 3d. Corn in more demand, and holders realize an advance.
Western Canal flour, old 41s, new 39s40s; Phil. and Balt 42s42s6d—Ohio 41s43s.
Yellow corn 43s44s 9d, white 43s43s6d.
Provisions—Gardiner & Co. report beef active and firmer. Pork better demand—prices maintained, though stock is heavy—prices advanced 1s1s6d. Lard is dearer.
Money abounds at—consols closed at 89¾a89¾ for money, 89¾a89¾ for account. Stocks well supported.

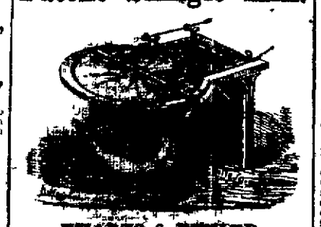
EVARTS' Patent Shingle Mill.



EVARTS & BUTLER, PROPRIETORS AND MANUFACTURERS, CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The saw with which wood is worked in this direction gives a speed of execution, and the flexibility of this saw is what gives the saw, so that it may be ground thin on the edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market twenty five cents per thousand higher than any other sawed shingles

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by Gaynor Hews of Boston, Mass

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and Industrial exhibitions in different cities of the Union, from the World's Fair at London, and following testimonials from the profession, residents at Boston and other places among which are the following

From the distinguished Pianist, L. M. GOTTSCHALK, to Mr Hews, Agent at New York

NEW YORK, Dec 8, 1852

MR N. J. CURTISS—

Dear Sir: Having had the pleasure of performing upon Gaynor Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Warerooms, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK

From the distinguished Pianist, WILLIAM MASON

MR HEWS.—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action I am free to say that your Pianos are certainly the finest city of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte

WILLIAM MASON

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

Farm for Sale.

THE SUBSCRIBER WILL SELL ONE of the best Farms in Milwaukee County, situated in Oak Creek township, adjoining the town of Lake, eight miles from Milwaukee, on the Chicago road. The Lake Shore Railroad passes through the corner of the Farm at right angles, and the Depot is within one hundred rods of the farm.

The farm contains about ninety acres good timber, and the best watered farm in the county. The House is large and location fine. One 30 by 40 Barn, one 20 by 40 Barn, Granary 18 by 20, and other buildings. An Orchard of 70 bearing Apple Trees, all grafted fruit.

The subscriber bought the farm fourteen years ago, of John T. Wright, Esq. who served with this part of the country. All who know the place will say that a better dairying farm can not be found.

The price of the farm is $50 per acre—one half down, the balance from one to four years, at 7 per cent.

Milwaukee & Watertown R. R.

THE MILWAUKEE & WATERTOWN RAILROAD Company will receive proposals for the building of the entire length of their Road from Milwaukee to Watertown, a distance of eighteen miles, until the first Monday of June next.

The proposals may be for the grading, bridging and masonry, each separately, or for the whole together—in which way also be for the superstructure separately, or as proposals may embrace the whole work so as to complete the Road ready to be used by the Company.

The plans and profiles will be ready at the Engineer's office, at Oconomowoc, on and after the fifth day of May.

The terms and mode of payment will be made known on the day of letting the work, or at any time previously, by calling on the President, at the Company's office in Milwaukee.

QUEEN'S PATENT PORTABLE FORGE AND BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers, Dentists and Chemists

It is compact—the Tuyer front is of superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Tuyer cap, which being under the fire, prevents the Tuyer from getting filled up with coal and ashes, as it will when there is but one opening. For our door work and for safety be-doors, this Forge has great advantages over others, having two slides by which the Forge can be close by shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists, &c. for chemical operations) all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U S Army and Navy. For sale by
